Vol. XVIII.]

SATURDAY, DECEMBER 6, 1817.

[No. 5091.]

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
HAIN'S ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary
remedy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
esteemed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir.
A sovereign remedy for colds, ob-
stinate coughs, asthma, sore throats, ca-
tarrhs, and approaching consumptions.
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative.
Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of
Nervous Disorders, Violent cramps in
Consumptions, the stomach and
Lowness of spirits, back
Loss of appetite, Indigestion
Impurity of blood, Melancholy
Hysterical affection, Gout in the stomach
Inward weaknesses, Pains in the limbs
and debility, Relaxations, etc.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**
An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion.
So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.
A sovereign remedy for all diseases of
the eyes, whether the effect of nature
weakness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY
SAMUEL SNOWDEN.
ROYAL STREET.

Daily Gazette 87 Country Gazette 85.

SATURDAY, DECEMBER 6, 1817.

SONG—From the German of Lessing.

I asked my fair, one happy day,
What I should call her in my lay;
By what sweet name from Rome or
Greece—
Iphigenia, Clelia, Chloris,
Laura, Lesbia, Delia, Do is,
Dorimene or Lucrece?
"Ah!" replied my gentle fair,
"Beloved, what are names but air?
Take thou whatever suits the line,
Clelia, Iphigenia, Chloris,
Laura, Lesbia, Delia, Doris—
But don't forget to call me mine."

Astronomical.

From the Boston Intelligencer.
"THE EARTH AND MARS, RAPIDLY
APPROXIMATING."

Mr. Russell—in December, 1708,
and January, 1709, the planet Mars,
by its contiguity to the Earth, exhib-
ited a magnitude and lustre which
attracted the attention of Europe,
and led the common people to appreh-
end, that a new star had burst on
their sight. The cause of that extra-
ordinary appearance is explained in
the Encyclopedia Britannica, in
the article Astronomy, page 416, and
plate 60. The Sun, Earth and Mars
seem placed at this time in the
same relative position to each other.
Every attentive observer of Mars
must have perceived by his naked eye
the growing size and brightness of
this planet for two or three months
passed. The Earth and Mars will con-
tinue to approach each other in the
Zodiac, until Monday, December 8.
They will then be in contiguity, and
Mars will be in opposition to the Sun,
as our Moon is at the full.

Mars, as well as Earth, is obvious-
ly in that part of its elliptical orbit
styled perihelion, or its nearest ap-
proach to the sun. Mars, the bright
apparent star which rises in the East
at early eve, is at this time about
five times nearer than at its remotest
distance from the Earth and Sun, and
will soon shine with a lustre twenty-
five times greater. After the 8th
December he will begin to recede,
at first in a retrograde course, and
will slowly diminish to the eye, in
the same proportion as his observable
increase for two or three months
passed.

It is hoped that our astronomers,
particularly our respected Professor
at Cambridge, will improve this fa-
vorable opportunity for accurately
observing and marking, by the aid
of their telescopes, the particular
phases of Mars, and their varying on
different nights or distinct periods of
the same night, and compare them
with those of 1708-9, described in the
67th plate, fig. 46, &c. of the Ency-
clopedia referred to. They will please
show the public how far the two dis-
tinct displays of Mars agree or dis-
agree.

In plainer language to those not
conversant with astronomy, on the
8th of December, 1817, a right line
drawn from the centre of the Sun to
Mars, (which is styled a superior
planet, because, unlike the inferior
planets of Venus and Mercury, its
orb is without that of the Earth)
will pass directly through our globe.
This is not meant in philosophical
strictness, as though both planets
will be in the same degree of the Zo-
diac; Mars will probably pass a lit-
tle to the North or South of the Eclip-
tic or Earth's path in the Heavens.

It may gratify some of our read-
ers, not having books of Astronomy
at hand, that I should add, that Mars,
who may be easily distinguished by
his rising in the East soon after sun-
set, and exhibiting a red and vi-
vid lustre, not twinkling like the fix-
ed stars, revolves around the sun in
a little less than two of our years;
that his mean distance from the sun
is about one hundred and forty-five
millions of miles, whilst that of the
Earth is about ninety-five millions;
that his relative magnitude is reputed
about one third of the Earth; that
his common appearance is of a dusky
reddish hue, supposed to be owing to
thickness of his atmosphere or the
redness of the soil reflecting that col-
our; that he has spots upon his body
and has a rotation upon his axis in
twenty-four hours and about forty mi-
nutes.

H. I.

Newton, November 24, 1817.
"The naked eye, a celestial globe,
and L. Thomas' Jun. Ephemeris, will
explain the whole relative to Mars'
present appearance."

Philadelphia, Dec. 2.

By the British ship Thomas, captain
Hutchinson, arrived at this port in 42 ds.
from Liverpool, the Editors of the Free-
man's Journal have received London pa-
pers to the 13th, and Liverpool papers to
the 15th October.

Upon a slight perusal of these papers,
their contents do not appear to be very
important. The Earl of Dublin had ar-
rived in Dublin, and was sworn in as Lt.
Lieut. of Ireland.—Alderman C. Smith,
a ministerialist, has been chosen Lord
Mayor of London.—A letter from Ham-
burg, of Sept. 30, states that on the pre-
ceding Sunday, the town of Neustadt, in
Holstein, was nearly destroyed by fire.—
The price of copper has again risen 14d.
per ton, making an advance of 50d. per
cent. within a short period.—On the 22d
Sept. at 3 o'clock in the morning, a smart
shock of an earthquake was felt at An-
goulême in France.—The Russian impe-

rial consul at Hamburg on the 30th Sept.
officially communicated to the captains of
Russian ships the important intelligence,
"that his Majesty the Emperor, in con-
cert with the allied powers, has already
resolved on the most effectual measures to
put an end to the piracies of the Bar-
bary powers." A London paper of Oct.
13th, says, "New wheat fell this day 8
shillings below the price of last week—
and Old wheat about three shillings."—
American Flour at Liverpool, Oct. 14, as
stated in the Courier, of 15th, 52s 54s.—
Letters from St. Petersburg state, that
immense quantities of hemp, flax and tal-
low, could not be shipped on account of
the scarcity of vessels. Two or three
hundred ships, mostly British, had passed
the Sound for the higher ports of the Bal-
tic; they would, no doubt, be immedi-
ately loaded. Two or three failures, to a
considerable amount, had occurred—they
were Russian houses. The Paris papers
were chiefly filled with the trials of the
assassins of Fualdez and the conspirators
of the Black Pin.

EXTRACTS OF LETTERS.
Liverpool, Oct. 15.—The demand for
cotton is a little more extensive. Flour
dull, 50s 52s.

London, Oct. 11.—American new six
per cents 105.

Liverpool, Oct. 15.—The advices from
London today, of a fall of 6 a 10s. per
quarter of wheat, will depress our mar-
kets still more.—Our ports will certainly
close the 15th Nov.

Liverpool, Oct. 11.—Uplands 20 a 22

Rye flour 29 and 30s. Rice 34 a 38 6d.

lar for the trade—James River, leaf, 4

DEFEAT OF THE ROYALISTS IN CARACAS.
From the N. York E. Post. Dec. 2.

From Porto Cavallo.—By the big Ac-
tive, Bowers, which arrived this forenoon
in 30 days from Porto Cavallo, we are
informed that previous to her sailing it
was reported and believed that the Ro-
yalists had suffered a severe defeat at Ca-
mana and Barcelona. Several Spanish
transport ships with troops which had
been in the action, arrived at Porto Ca-
vella two or three days before Capt. Bow-
ers sailed, but every thing relating to the
affair, which might enable the public to
judge of the magnitude of the disaster,
was kept a secret.

Norfolk, December 2.

The United States frigate Congress,
A. Sinclair, Esq. commander, got under
weigh from the bite of Craney Island,
yesterday morning about 9 o'clock, and
was towed into the Roads by the Steam-
Boat Virginia, Capt. Ferguson, than on
her way to Baltimore. She was at an-
chor last evening at sunset, under Sea-
well's Point, and, we understand, was
waiting her final instructions from the na-
vy department.

MAMMOTH TURNIPS.
Mr. Jonathan Dellas, of Port Eliza-
beth, raised in his garden this year, a
crop of turnips of an unusual size; one
of them measured twenty nine and a half

ferior, either in point of size or weight.

Mr. Norman Sheppard, of Bridgeton,
Cumberland county, raised this year a
stock of Corn, which produced seven full
ears, beside a number of setts. [ibid.]

FROM AMELIA ISLAND.

Extract of a letter from a friend to the
editors of the Sav. Museum, dated
"Fernandina, Nov. 22."

"I can give you but little news from
here—things remain quiet under the Span-
ish and Negro command. I look on all
the transactions which occur as I would
at a good farce in a play house.
"On the 19th instant there was a sale
here of prize goods; and this farce ex-
ceeded all others hitherto presented. In

the first place, not the slightest form of
regular legal condemnation was observ-
ed—some were shipped, some stolen, and
the remainder set up at auction, and
principally bought in by the private agent.
Much has been promised, on paper, by
the present masters of Amelia—order,
government, and good faith; yet, not-
withstanding all this, several persons who
had deposited money, as an earnest, to
be forfeited in ten days if the bargain
was not complied with, did not receive a
dollar's worth of the produce sold them.
The representatives were *bien fachés*,
mortified, and such sort of stuff, yet not a
box of sugar was delivered on their
pledges, and the American gentlemen
quietly received their money, no doubt
rejoiced to get clear of such a set of men,
without more serious injury.

A sale took place again on Wednes-
day for a private concern. White Ha-
vana sugars sold at 97 1/2 cents per hun-
dred; coffee 16 1/2 cents per lb; cochineal
\$12, inferior."

Extract of a letter to the editor of the
Charleston Courier, dated
"St. Mary's, Nov. 22."

"I enclose you a farcical proclamation,
just issued by the military chief, at pre-
sent holding rule at Amelia Island; in
which, good soul, in a fit of clemency, he
thinks proper to grant to his party—col-
ored associates the blessings of a free go-
vernment.

"You, at a distance, can form no idea
of the *emancipation* of the Floridas, and
the great advance of civilization in this
young republic. In speaking of the go-
vernment about to go into operation, they
express a wish to form a convention simi-
lar to that in the early days of the French
revolution. Numbers of Americans have
been banished into the United States—
this is a terrible sentence! They have
even taken upon themselves, it is said, to
proscribe some of their inhabitants to a
residence north of Charleston; and we
expect daily to see a guillotine erected in
"Washington Square," Fernandina,
and some Mexican chief, holding up the
reeking head of an American citizen, ex-
claiming, "behold the head of a traitor."

"The proclamation is a specimen of
the sort of liberty to be expected in that
devoted place. "When dangers (says
the general) threatened the infant repub-
lic, I was the first to recommend effectual
measures, though contrary to the most
sacred rights of the citizen." The oath
of allegiance amounts to an absolute ex-
clusion of Americans; they are called on
to renounce all governments not actually
struggling with Spain; and in lieu of a
free, sovereign and independent state, a
constructive allegiance to the South A-
merican provinces lurks under the oath;
and if success crown the enterprise the
Floridas would be little better than an
appendage to Mexico."

From the Charleston Gazette, Nov. 28.
FROM AMELIA ISLAND.

We were yesterday favored with the
following document, lately issued at Fer-
nandina:

ELECTION.

A meeting of the officers of the Repub-
lic of the Floridas, convened by general
order on the 16th of Nov. 1817, at the
house of the commander in chief, having
assembled, the session was opened by the
general as follows:

"Gentlemen.—When the dangers that
threatened the existence of our infant re-
public required that effectual measures
should be taken to establish order and
tranquillity, I was the first to recommend
them, though contrary to the sacred
rights of the citizen. The martial law
was proclaimed for ten days; it has ex-
pired, and the tranquillity that now ex-
ists allows the citizens peaceably to elect
their representatives. In my humble op-
inion it would be dangerous to extend
any longer the empire of this law, as it
can merely tend, at the present moment,
to check the progress of our operations.

I, therefore, suggest that an assembly
of representatives be called to frame and
constitute a provisional government, ad-
apted to the present situation of the
state, well understood that while they
are exercising so precious a right, the
present military establishment must be
supported in order not to suffer our ex-
istence to be impaired by the intrigues
and treacherous machinations of our com-
mon enemy.

The members of the meeting having
taken the subject into serious considera-
tion, unanimously agreed on the following
resolutions:

1. That on Wednesday, the 19th inst.
the inhabitants of this island of Amelia
be summoned for the purpose of electing
representatives, whose duty it will be to
frame and constitute a provisional go-
vernment, to continue in force until a
constitution for the state be framed by a
convention, legally called and composed
of delegates of the people of the Floridas,
free and independent from the king of
Spain, his heirs and successors.

2. Every free inhabitant, who shall
have resided fifteen days previous to this
on the island, shall be entitled to vote;
but previous to giving his vote he shall
take and subscribe the following oath:—
"I swear that I will truly and faithfully,
and as far as in my power, support the
cause of the Republic of the Floridas
against its enemies. I renounce all al-
liance to any state not actually strug-
gling for the emancipation of Spanish A-
merica: So help me God."

3. No military officer, non-commission-
ed officer, or private, in actual service,

shall be entitled to vote, but may be
elected as a representative.

4. There shall be nine representative
Every voter shall give in writing the
names of the nine he votes for to the of-
ficers to be appointed for the purpose.

5. Every free person intending to vote
shall call before the election at the Tre-
sury Office, in Washington Square, in
the purpose of subscribing and taking the
above mentioned oath, Major
WALSH and V. PAZOS are appointed
to administer the same.

6. The polls shall be opened from 8
o'clock in the noon to sunset, and re-
day, the 20th, from sunrise to sunset.

Colossal Statue of Bonaparte.—The
Prince Regent has presented to the
duke of Wellington the colossal statue
of Bonaparte, which was lately sent
from France to his royal highness.—
This statue was executed by the cele-
brated sculptor Canova, and intended
to adorn some of the public works in
progress in Paris when the ex-emper-
or was driven from his throne. The
Roman sculptor had been particularly
patronised by the Napoleon family, and
it is said, used the greatest ex-
ertions to make the work worthy of
his own and his patron's fame. The
statue, after the pure taste of the an-
tique, is but slightly draped, and is
intended to convey an expression of
great dignity and majesty. The at-
tempt is said to have been too daring
for the sculptor, who excels beyond
any other living artist in the expres-
sion of delicate touches and poetical
beauty, but who is thought to have
been unsuccessful in this arduous
flight to rival the most exalted glories
of Grecian art. The work was not
liked in Paris, and was hardly un-
packed; it was even the subject of
sharp criticism in Rome at the time
of its execution. It has been removed
to Apsley-house, Hyde-park-corner,
the residence of the duke of Wellin-
ton.

Sully for Sale. THIS estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation, and those, now untillied, are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed: the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm houses, which are all nearly new, are expensive and excellent in their kind.

For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unincumbered.

A number of well taught orderly young men, with good stocks and farming utensils of all kinds, and the crops of the present year, will be at the command of the purchaser.

Application may be made to the subscriber, living on the premises, next the post-office at Pleasant Valley, in Fairfax.

Fifty Dollars Reward.

RAN AWAY, on Saturday evening, the 11th inst. my mulatto man, named NED, commonly called NED M-RAX alias SHIRWING. He is about 23 or 24 years of age, 5 feet 8 or 9 inches high, and was raised in Manchester. Ned is well made, high forehead and large flat nose: had on when he went away a grey coat and pantaloons, but as he was well provided with clothing of various kinds, it is probable he may have changed his dress. It is believed he went off with his wife, who it appears left Richmond at the same time: she is very black, and I believe, somewhat pitted with the small pox, talks a great deal, of short stature, and rather thick made. Ned is very artful, and may probably attempt to pass for a free man; he has a down look when spoken to. The above reward will be given if taken out of Richmond or Manchester, and twenty-five dollars if taken in either place, and all reasonable expenses paid for delivering him to the subscriber.

RESPECTFULLY inform the public that they have just received from

Lee's Medicine Store,

No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small maw-worm; the Cucurbitina or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite. Sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended

Hahn's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
